

# Platform for Practice – a guide for roles

Knowledge	Skills	Experiences	Behaviours, characteristics and preferences
<p>State all kinds of knowledge required for this role: clinical, technical, operational – think about what is in the job description and person specification, but ask yourself if there are things not overtly stated in the JD/person spec' which are assumed</p>	<p>State all kinds of skills required for this role; clinical, inter-personal, technical, operational – again you might think what is in the job focus on the skills</p>	<p>Use this space to capture the professional experience required for this role – again think person spec'</p> <hr/> <p>For a given role there would not be specified personal experiences but supervisors should not ignore the potential impact of experiences outside of practice which may influence how a practitioner anticipates and meets practice demands</p>	<p>What sorts of behaviours are helpful in this role.... organised, a bit last minute ...</p> <hr/> <p>.... and characteristics ..... private, chatty, perfectionist .....</p> <hr/> <p>.... and preferences ... early bird, being active, avoiding conflict ....</p>
